ASSESSMENT

Developing Models Rubric

BLM A-26

When assessing students' understanding and ability to apply modelling, consider if the student:

□ creates a model that shows a thorough understanding of the concept	
□ accurately identifies the key components of the system or process being modelled, with added detail	
□ demonstrates a thorough understanding of the concept of scale or system	4
□ identifies and explains limitations of the model	
□ creates a model that shows an understanding of the concept	
$\hfill\Box$ accurately identifies the key components of the system or process being modeled	
□ demonstrates an understanding of the concept of scale or system	3
□ identifies and explains some limitations of the model	3
□ creates a model that relates to the concept	
$\hfill\Box$ identifies some of the key components of the system or process being modeled	
□ demonstrates a basic or partial understanding of the concept of scale or system	
□ identifies a few limitations of the model	2
□ does not complete the task	
□ identifies some of the components of the system or process	
□ does not show understanding of the concept of scale or system	1
□ shows no evidence of awareness of the limitations of the model	'
