## ASSESSMENT Fair Testing Rubric

When assessing students' understanding and ability to conduct a fair test of an experiment, consider if the student:

$\Box$ demonstrates a thereugh understanding of variables and controls and is able to list	
<ul> <li>demonstrates a thorough understanding of variables and controls and is able to list all possible variables in an experiment</li> </ul>	
□ can suggest a list of creative experiments where variables can be identified	4
ensures that experiments performed are tested fairly	
□ is able to list the variables that can be changed in an experiment	-
□ can suggest a list of experiments where variables can be identified	
□ is able to report on the fairness of an experiment	3
□ is able to list some of the variables that can be changed in an experiment	
□ can suggest a few experiments where variables can be identified	
□ is able to explain some aspect of the fairness of an experiment	2
□ is unable to identify the variables of an experiment	
□ is unable or incorrectly suggests experiments where variables can be identified	
□ does not consider fair testing of an experiment	1
