

Goal • Use this activity to review science topics.

### What to Do

1. In the **outer area** write or make jot notes about what you know about the topic. You can refer to your notes or textbook if necessary.
2. In the **centre box**, draw a model or picture, or create a graphic organizer, to explain or describe the topic.
3. In the **middle area**, summarize the topics or answer the question: What does the information about the topic mean to me?

Topic: \_\_\_\_\_

What I know

What it means

Picture or graphic organizer
