

# Chapter 2 Review

## Student Text Pages

130–131

## Suggested Timing

60–80 min

## Tools

- grid paper
- scientific calculators

## Related Resources

BLM 2-12 Chapter 2 Literacy  
BLM 2-13 Chapter 2 Review  
BLM G-1 Grid Paper

## Accommodations

**Motor**—have students work with a partner to assist with drawing diagrams

**Memory**—have students create a summary page with examples of how each trigonometric tool is used to solve triangles

## Teaching Suggestions

- Supply students with grid paper or **BLM G-1 Grid Paper**.
- The Chapter Review is organized by chapter sections and is designed to completely review the concepts studied in this chapter.
- Students might work independently to complete the Chapter Review, and then work in pairs to compare solutions. Alternatively, the Chapter Review could be assigned for reinforcing skills and concepts in preparation for the Practice Test. Provide an opportunity for students to discuss any questions containing strategies or questions with features they find difficult.
- After they complete the Chapter Review, encourage students to make a list of questions that caused them difficulty, and include the related sections and teaching examples. They can use this to focus their studying for a final test on the chapter's content.

## Literacy Connections

- Provide students with **BLM 2-12 Chapter 2 Literacy**. Ask them to complete the BLM as they review each section in preparation for the Chapter Test.

## Ongoing Assessment

- Students should use the Chapter Review to determine the topics that they need the most help with in order to prepare for the chapter's summative assessment.

## Extra Practice

- Use **BLM 2-13 Chapter 2 Review** for extra review.
