Teaching Suggestions

- The Chapter Review is organized by chapter sections and is designed to completely review the concepts studied in this chapter.
- Students might work independently to complete the Chapter Review, and then work in pairs to compare solutions. Alternatively, the Chapter Review could be assigned for reinforcing skills and concepts in preparation for the Practice Test. Provide an opportunity for students to discuss any questions containing strategies or questions with features they find difficult.
- After they complete the Chapter Review, encourage students to make a list of questions that caused them difficulty, and include the related sections and teaching examples. They can use this to focus their studying for a final test on the chapter's content.
