

Goal • Use this memory game to build your understanding of the terms discussed in this unit.

What to Do

1. Define each term in column 1 in the corresponding blank in column 2.
2. Cut along all lines, separating the term from its definition.
3. Store your pieces in an envelope or bag. To play the game, place all pieces face up on a table and match the term with its definition. Repeat until you get them all correct.

Term	Definition
Temperature	
Celsius	
Fahrenheit	
Kelvin	
Liquid-in-glass thermometer	
Thermocouple	
Resistance thermometer	
Bimetallic strip	
Infrared thermometer	
Matter
