## Unit 1 Sustainable Ecosystems .....

Unit 1 At A Glance .....	4
Get Ready for Unit 1 .....	6

<b>Topic 1.1</b> What are ecosystems, and why do we care about them? .....	8
<b>Topic 1.2</b> How do interactions supply energy to ecosystems? .....	18
<b>Investigation 1A:</b> Plot the Pathway .....	26
<b>Topic 1.3</b> How do interactions in ecosystems cycle matter? .....	28
<b>Strange Tales of Science:</b> Journey of an Immortal Carbon Atom ..	36
<b>Topic 1.4:</b> What natural factors limit the growth of ecosystems? .....	40
<b>Investigation 1B:</b> Investigating Limiting Factors for Algae Growth .....	46
<b>Strange Tales of Science:</b> Bacteria Take Over the World .....	48
<b>Topic 1.5</b> How do human activities affect ecosystems? .....	50
<b>Making a Difference:</b> Dayna Corelli and Rebekah Parker .....	58
<b>Investigation 1C:</b> Human Activity in a Local Ecosystem .....	59
<b>Topic 1.6</b> How can our actions promote sustainable ecosystems? .....	62
<b>Making a Difference:</b> Yvonne Su and Chaminade College .....	72
<b>Case Study Investigation:</b> Securing a Bright Future for Songbirds .....	74
<b>Investigation 1D:</b> Investigating a Local Environmental Project ..	76
<b>Science at Work:</b> Fisheries Technician .....	78
<b>Unit 1 Summary</b> .....	80
<b>Unit 1 Projects</b> <b>Inquiry Investigation:</b> Investigating Compost .....	82
<b>An Issue to Analyze:</b> Going Greener .....	83
<b>Unit 1 Review</b> .....	84

## Unit 2 Exploring Matter . . . . . 88

Unit 2 At A Glance . . . . . 90

Get Ready for Unit 2 . . . . . 92

**Topic 2.1** In what ways do chemicals affect your life? . . . . . 94

**Strange Tales of Science: Minding Scientific Inquiry** . . . . . 102

**Topic 2.2** How do we use properties to help us describe matter? . . . . . 104

**Investigation 2A: Physical and Chemical Properties of Substances in the Home** . . . . . 110

**Topic 2.3** What are pure substances and how are they classified? . . . . . 112

**Investigation 2B: Comparing the Physical Properties of Metals with Non-Metals** . . . . . 118

**Topic 2.4** How are properties of atoms used to organize elements into the periodic table? . . . . . 120

**Topic 2.5:** In what ways do scientists communicate about elements and compounds? . . . . . 130

**Case Study Investigation: Salt of the Earth** . . . . . 136

**Topic 2.6:** What are some of the characteristics and consequences of chemical reactions? . . . . . 140

**Investigation 2C: Identifying an Unknown Gas** . . . . . 148

**Making a Difference: Adrienne Dulmering and Sarah Mediouni** . . . . . 150

**Science At Work: Baker** . . . . . 152

**Unit 2 Summary** . . . . . 154

**Unit 2 Projects Inquiry Investigation: Rust Formation** . . . . . 156

**An Issue to Analyze: Evaluating the Use of Road Salt** . . . . . 157

**Unit 2 Review** . . . . . 158

**Unit 3 Space Exploration** ..... 162

**Unit 3 At A Glance** ..... 164

**Get Ready for Unit 3** ..... 166

**Topic 3.1:** What do we see when we look at the sky? ..... 168

**Case Study Investigations:** A Tale of the Bear ..... 178

**Investigation 1A:** Make a Star-Finder Wheel ..... 180

**Topic 3.2:** What are the Sun and the Moon, and how  
are they linked to Earth? ..... 182

**Case Study Investigation:** Solar Storms ..... 192

**Topic 3.3:** What has space exploration taught us about our solar system? ... 196

**Topic 3.4:** What role does Canada play in space exploration? ..... 208

**Strange Tales of Science:** The Phantom Torso ..... 214

**Investigation 3B:** You, Robot ..... 216

**Science at Work:** Digital Composer ..... 218

**Topic 3.5:** How do we benefit from space exploration? ..... 220

**Making a Difference:** Shelby Mielhausen and  
Nishant Balakrishnan ..... 228

**Unit 3 Summary** ..... 230

**Unit 3 Projects** **Inquiry Investigation:** Space Thirst ..... 232

**An Issue to Analyze:** The Cost and Benefits of  
Space Travel ..... 233

**Unit 3 Review** ..... 234

**Unit 4 Electrical Applications** . . . . . 238

**Unit 4 At A Glance** . . . . . 240

**Get Ready for Unit 4** . . . . . 242

**Topic 4.1:** How do the sources used to generate electrical energy compare? . . . . . 244

**Investigation 4A:** Leapin' 'Lectricity . . . . . 250

**Topic 4.2:** What are charges, and how do they behave? . . . . . 252

**Investigation 4B:** Charging Materials . . . . . 262

**Topic 4.3:** How can objects become charged and discharged? . . . . . 264

**Investigation 4C:** Materials for Lightning Rods . . . . . 272

**Topic 4.4:** How can people control and use the movement of charges? . . . . . 274

**Making a Difference:** Vishvek Babbar and Ghufraan Siddiqui . . . 284

**Investigation 4D:** Using Ammeters and Voltmeters . . . . . 286

**Investigation 4E:** Observing the Effects of Resistance on Current . . . . . 288

**Investigation 4F:** Potential Difference and Current . . . . . 290

**Topic 4.5:** What are series and parallel circuits, and how are they different? . . . . . 292

**Investigation 4G:** Observing Characteristics of Series Circuits . . . 298

**Investigation 4H:** Observing Characteristics of Parallel Circuits . . . 300

**Strange Tales of Science:** Sparks of Genius . . . . . 302

**Topic 4.6:** What features make an electrical circuit practical and safe? . . . . . 304

**Topic 4.7:** How can we conserve our use of electrical energy at home? . . . . . 314

**Case Study Investigation:** People Power . . . . . 320

**Making a Difference:** Katie Pietzakowski and Patrick Bowman . . . 322

**Science at Work:** Electronic Instrumentation Technician . . . . . 324

**Unit 4 Summary** . . . . . 326

**Unit 4 Projects Inquiry Investigation:** Energy Savings . . . . . 328

**An Issue to Analyze:** Choosing Energy Sources in Ontario . . . . . 329

**Unit 4 Review** . . . . . 330

<b>Guide to the Toolkits and Appendix</b> .....	334
<b>Science Skills Toolkit 1: Analyzing Issues—STSE</b> .....	335
<b>Science Skills Toolkit 2: Scientific Inquiry</b> .....	339
<b>Science Skills Toolkit 3: Technological Problem Solving</b> .....	344
<b>Science Skills Toolkit 4: Estimating and Measuring</b> .....	346
<b>Science Skills Toolkit 5: Precision and Accuracy</b> .....	352
<b>Science Skills Toolkit 6: Scientific Drawing</b> .....	354
<b>Science Skills Toolkit 7: Using Models and Analogies in Science</b> .....	356
<b>Science Skills Toolkit 8: How to Do a Research-Based Project</b> .....	358
<b>Science Skills Toolkit 9: Using Electric Meters</b> .....	362
<b>Science Skills Toolkit 10: Creating Data Tables</b> .....	365
