

Star-Finder Wheel Template

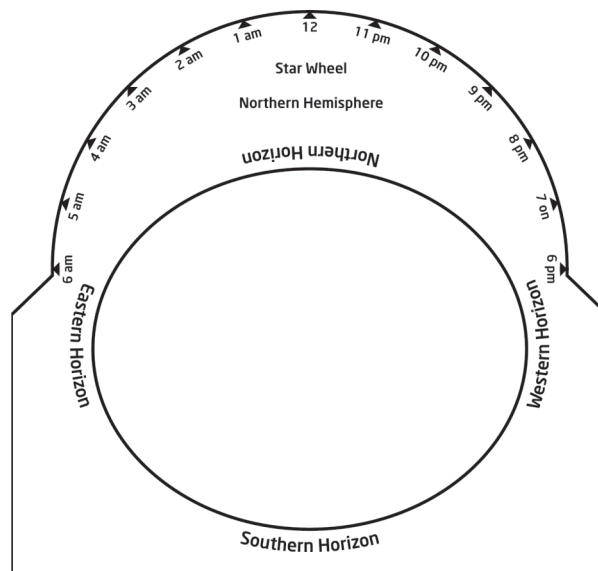

Goal • Use a model of the night sky to find and identify constellations.

Instructions to Make Your Own Star-Finder Wheel

1. Cut along the dashed lines on the Wheel Holder on the second last page. Fold along the dotted lines.

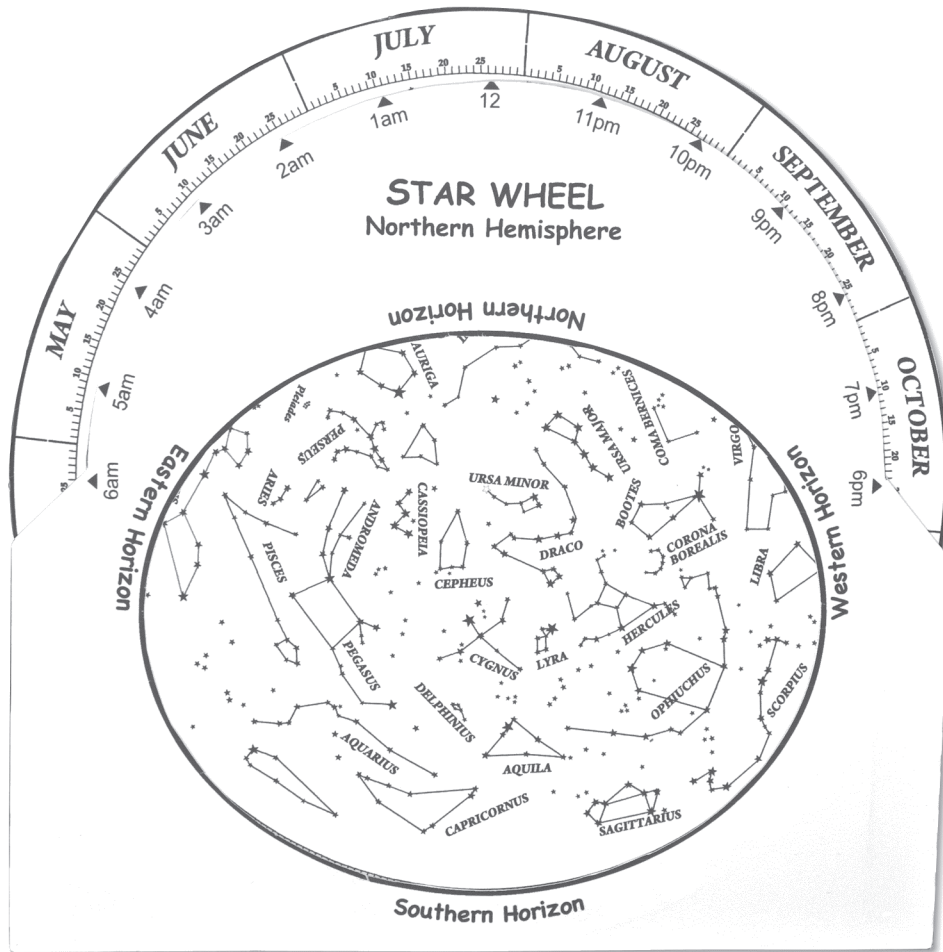

2. Fold up the smaller portion to make a pocket. Fasten the sides with glue, staples, or tape.

Star-Finder Wheel Template

3. Cut along the outer dashed line on the Star-Finder Wheel found on the last page. Place the wheel inside the holder.
