

How to Do Page 428 Example 2 Using TI-83/84

Use TI-83/84 to determine and verify the solution to the following system of linear-quadratic equations:

$$4x - y + 3 = 0$$

$$2x^2 + 8x - y + 3 = 0$$

- Enter each equation in the Y= Screen.
 - Press $\boxed{Y=}$. Note: if you wish to clear a line, move the cursor to the line and press $\boxed{\text{CLEAR}}$ $\boxed{\text{ENTER}}$.
 - On one of the lines, enter the first equation by pressing $4 \boxed{\text{x,T,}\theta,\text{n}}$ $\boxed{+}$ 3 .
 - On a different line, enter the second equation by pressing $2 \boxed{\text{x,T,}\theta,\text{n}}$ $\boxed{x^2}$ $\boxed{+}$ $8 \boxed{\text{x,T,}\theta,\text{n}}$ $\boxed{+}$ $3 \boxed{\text{ENTER}}$ as shown in Figure 1.

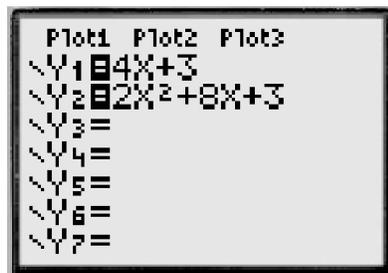

Figure 1

- Enter a window and then graph the functions.
 - Press $\boxed{\text{WINDOW}}$. A possible window is shown in Figure 2.

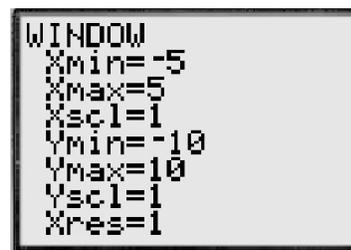

Figure 2

- Press $\boxed{\text{GRAPH}}$. You will see Figure 3.

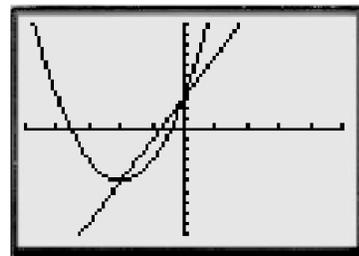

Figure 3

- Calculate each intersection.
 - Press $\boxed{2\text{nd}}$ $\boxed{\text{TRACE}}$.
 - Choose 5: intersect as shown in Figure 4. Press $\boxed{\text{ENTER}}$. You will be asked if the cursor is on the first curve and then on the second curve. Press $\boxed{\text{ENTER}}$ both times.

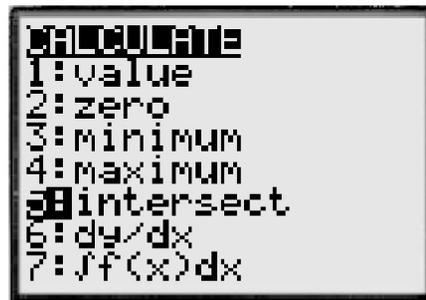

Figure 4

- You will be asked to guess a value for x . Press **ENTER** and one of the intersection points will be found. See Figure 5.

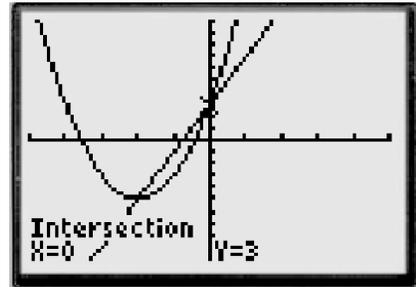

Figure 5

- To find the remaining intersection point, repeat the steps for calculating an intersection, but this time when asked for a guess, use the right or left arrow key to move the cursor near the remaining intersection point. Then, press **ENTER**. You will see Figure 6.

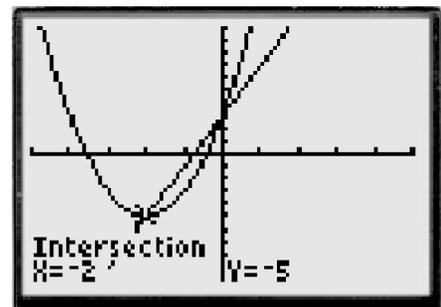

Figure 6

4. Verify that the solution is correct:

- Press **2nd** **MODE**.
- Press **4** **x** **0** **=** **3** **+** **3** **ENTER**.
- Type **2** **x** **0** **x**² **+** **8** **x** **0** **=** **3** **+** **3** **ENTER**. You will see Figure 7. Then, press **CLEAR**.
- Press **4** **x** **-2** **=** **-5** **+** **3** **ENTER**.
- Type **2** **x** **(** **-2** **)** **x**² **+** **8** **x** **-2** **=** **-5** **+** **3** **ENTER**. You will see Figure 8 (below).
