Overview

This McGraw-Hill Ryerson Pre-Calculus 11 Student Workbook is designed to complement the student resource.

Student Workbook Features for Students

- Each section begins with Key Ideas that summarize the concepts needed to complete the exercises.
- The sections continue with working examples that guide you through the skills needed to complete the exercises.
- The working examples often include references to the *Pre-Calculus 11* student resource. These references suggest that you compare the methods used to solve the examples, or review similar examples to help consolidate your understanding of the concepts.
- Exercises are organized into three sections: Practise, Apply, and Connect.
- A selection of questions in the exercise sections include references to similar questions in the *Pre-Calculus 11* student resource.
- A review of all sections is included at the end of each chapter.
- Each chapter includes at least one Skills Organizer that assists you in summarizing the important information in that chapter.
- Answers to all questions are provided at the back of the book.
- To access Study Checks for each chapter, which will help you identify what skills and concepts you need to reinforce, go to www.mhrprecalc11.ca and follow the links to the Student Workbook.

Student Workbook Features for Teachers
