

Case Study: Two Islands

Look at the pictures that show the same island 50 years apart.

<p>The island has a wetland, forest, river, and streams and a rich diversity of animal and plant species.</p>  <div style="margin-top: 20px;">  </div>	<p>The island looks different after it was developed for settlement.</p>  <ul style="list-style-type: none"> • The wetland was drained and developed for tourists. • The forest was cleared for homes, factories, and a landfill. • The industrial area is on the river for easy access to water.
