

# Hazardous Household Product Symbols

Hazardous Household Product Symbols or HHPS symbols use shapes and colour to warn of danger. Notice how the shapes look like traffic signs.

- Colour the "danger" symbol red.
- Colour the "warning" symbol orange.
- Colour the "caution" symbol yellow.

These shapes and colours are used to show how poisonous, flammable, explosive, or corrosive something is.

1. Do research to find out what each danger means. Then sketch the symbol that gives the warning.

What It Means	Symbol
<b>a)</b> Poisonous	
<b>b)</b> Flammable	
<b>c)</b> Explosive	
<b>d)</b> Corrosive	

Name: \_\_\_\_\_

Date: \_\_\_\_\_

2. Choose four different household products from the supply that your teacher provides.

- Read the label on each product.
- Draw the symbols that you find on each one.
- List how you would store these products at home.

<b>Household Product</b>	<b>HHPS on Container</b>	<b>How Should You Store This Product at Home?</b>
<b>a)</b>		
<b>b)</b>		
<b>c)</b>		
<b>d)</b>		

3. List three household products you use at home that have warning symbols.

- For each one, make a plan for storing it safely.

<b>Household Product</b>	<b>How Should You Store This Product at Home?</b>
<b>a)</b>	
<b>b)</b>	
<b>c)</b>
