

Chapter 3 Test

1. Name 2 types of places in your community that can be rented.

2. **a)** To be able to afford \$800 in monthly rent, you would need to earn _____ per week.
- b)** If you worked 35 hours per week, you would need a job that paid you _____ per hour.
- c)** Give an example of a place in your community that could be rented for \$800 per month.

3. Ashleigh earns \$700 net per week. She lives alone in a 1-bedroom basement apartment. The monthly rent is \$745. What percent of her monthly net income is spent on rent? Assume a 4-pay month.

4. **a)** Sean works 40 hours per week as a cook. He earns \$12 per hour. He wants to spend 30% or less of his monthly income on rent. What is the maximum monthly rent he should pay? Assume a 4-pay month.

- b)** How could Sean afford a more expensive apartment?

5. This year, the monthly rent for the Hibberds' 3-bedroom house is \$1300. If the annual percent rent increase for next year is set at 3.1%, what will be the monthly rent for the house next year?

Name: _____

Date: _____
