Hairstylist Spreadsheet

Use this spreadsheet to help answer questions 1b) and 2 on page 155.

Use the first spreadsheet to record Jen's house expenses for 1 year.

- Total each row so Jen will know her monthly expenses.
- Total each column for a total of the annual expense for each item.

Use the second spreadsheet to record Jen's business expenses for 1 year.

- Decide how you will classify her business expenses. For example, shampoo, hairspray, gel, and mousse might be classified as "Supplies." What other categories can you use? There are 8 columns, so you could develop as many as 8 categories.
