

CHAPTER 18	Launch Lab: DNA Extraction Answer Key	BLM 18.0.1A
ANSWER KEY		

Answers to Analysis Questions

1. The DNA will look like a thin piece of white thread as it is spooled on the glass stirring rod.
2. Your answer will depend on your observations and description of the DNA that you extracted during this investigation. Researchers could take the thin strand of DNA and conduct tests that would give them more information on the chemistry of this molecule or the researchers might be able to take x-rays of the molecule.
