

## CHAPTER 18

### HANDOUT

# Genetic Timeline Research Project

### BLM 18.1.3

Research the role that four or five scientists played in determining the structure and function of DNA. Web links related to this chapter can be found at [www.albertabiology.ca](http://www.albertabiology.ca). Go to the Online Learning Centre, choose the Student Edition and follow the links to Chapter 18.

Using the names and contributions of the individuals you researched, create a timeline flowchart. Write a reflection to explain why you chose these specific individuals. In your opinion, how are their contributions important to our understanding of the DNA molecule?

This image shows a single sheet of white paper with horizontal blue ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.
