

CHAPTER 8
ASSESSMENT**Heart Anatomy****BLM 8.1.1**

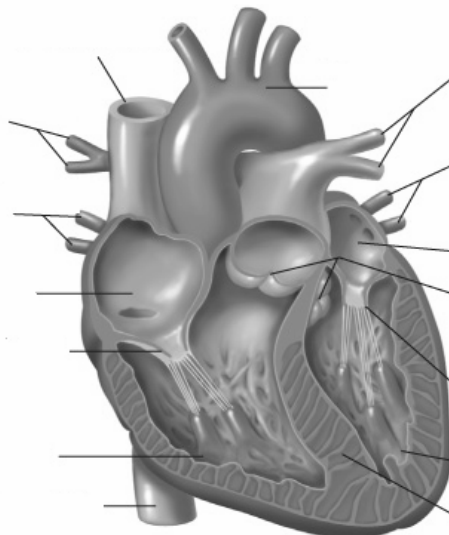

The heart provides the pumping power for the circulatory system. It is about the size of a fist and is located approximately between the second and fifth ribs.

Part A Using Figure 8.2 on page 269 from the textbook, label the external and internal views of the heart.

A. External View of the Heart

B. Internal View of the Heart

CHAPTER 8	Heart Anatomy	BLM 8.1.1
ASSESSMENT		

Part B Describe the function of each the heart structures listed below.

Heart Structure	Function of Heart Structure
Right and left atria (singular: atrium)	
Right and left ventricles	
Septum	
Superior vena cava	
Inferior vena cava	
Pulmonary arteries	
Pulmonary veins	
Aorta	
Tricuspid valve	
Bicuspid valve	
Semilunar valves
