

CHAPTER 9	Launch Lab: Dehydration and Urine Colour Answer Key	BLM 9.0.1A
ANSWER KEY		

Answers to Analysis Questions

1. Your answers will depend on the colour of the simulated urine solutions that were prepared for you. The darker the colour, the more concentrated the urine and the more the body is trying to conserve water by reabsorbing it from the urine before it leaves the body.
2. Dehydration can lead to serious illness or fatality.
