## **Square-Based Prism Data-Recording Table**

Use this table for recording data when investigating square-based prisms.

| Prism | Length of<br>Base (cm) | Area of<br>Square<br>Base (cm <sup>2</sup> ) | Height (cm) | Volume<br>(cm³) | Surface<br>Area (cm²) |
|-------|------------------------|--|-------------|-----------------|-----------------------|
| 1     |                        |  |             |                 |                       |
| 2     |                        |  |             |                 |                       |
| 3     |                        |  |             |                 |                       |
| 4     |                        |  |             |                 |                       |
| 5     |                        |  |             |                 |                       |
| 6     |                        |  |             |                 |                       |
| 7     |                        |  |             |                 |                       |
| 8     |                        |  |             |                 |                       |
| 9     |                        |  |             |                 |                       |
| 10    |                        |  |             |                 |                       |
