To the User

Welcome to the *MathLinks 8* Practice and Homework Book. This print resource provides additional opportunities for you to develop the skills you used in the *MathLinks 8* student resource.

- Each chapter begins with a Get Ready that can be used to help you reinforce the skills you will need to be successful with that chapter.
- The chapter content is divided into sections. Each section starts with a review of the Key Ideas. This is followed by a series of questions that allow you to practise and apply the skills and concepts from that section in the *MathLinks 8* student resource.
- The end of each chapter includes a Link It Together page that challenges you to combine the skills and concepts you learned during the chapter to solve problems.
- The final page of each chapter is a Vocabulary Link that reviews the key words and other important words from each chapter in the form of a word puzzle of some kind.
- There are pages of centimetre grid paper, 0.5 centimetre grid paper, and isometric dot paper starting on page 146 if you wish to make larger graphs and sketches.
- Answers for all questions appear at the end of the practice and homework book starting on page 152.

Additional activities, as well as games and puzzles, are available in McGraw-Hill Ryerson's Online Learning Centre. Go to **www.mathlinks8.ca** and follow the links to the Student Centre or to the Parent Centre. The Parent Centre also includes suggestions for helping your child in mathematics.
