

Section 1.3 Math Link

This worksheet will help you with the Math Link on page 35.

The organizers of a music concert are deciding between two performers as their headline attraction for a concert in December. The organizers want to use recording sales data to help make their decision. Consider the following graphs.

Recording Sales Over 6 Months

1. What information does the circle graph provide? Explain.

2. What information does the double bar graph provide? Explain.

3. The organizers know they must attract a large crowd to cover expenses. Which performer would you select? Justify your answer.
