

Chapter 9 Wrap It Up!

This worksheet will help you with the Wrap It Up! on page 363.

You are going on an adventure tour. Your adventure could be hang-gliding, hiking, canoeing, white-water rafting, dogsledding, whale watching, cycling, or any other adventure that interests you. Use travel brochures, the Internet, or other sources to locate information on your adventure.

1. What is your adventure? Write a brief description.
2. Where does it take place?
3. Find or create data for a linear relation that has to do with your adventure. You may wish to use ideas that were presented in Chapter 9 of your student resource. For example, the cost based on the number of days. Use integers only.
4. Place your data in the table of values shown.

		Ordered Pair

5. Use grid paper to graph the ordered pairs in your table of values. Label the axes.
6. Is it reasonable to have points between the ones on your graph? Explain why or why not.
