

Section 3.1 Math Link

This worksheet will help you with the Math Link on page 98.

1. Fill in the blanks to rewrite each formula using repeated multiplication. Then, answer the questions.

a) $S.A. = 6s^2$

$S.A. = \underline{\quad} \times \underline{\quad} \times \underline{\quad}$

What does $S.A.$ stand for? _____

What solid is this formula used for? _____

Describe in words how you would use the formula $S.A. = 6s^2$.

b) $V = \pi r^2 h$

$V = \underline{\quad} \times \underline{\quad} \times \underline{\quad} \times \underline{\quad}$

What does V stand for? _____

What solid is this formula used for? _____

Describe in words how you would use the formula $V = \pi r^2 h$.

2. Fill in the blanks to rewrite each formula using repeated multiplication. Then, answer the question.

a) $s^2 = \underline{\quad} \times \underline{\quad}$

What shape or solid is this formula used for? _____

b) $\pi r^2 = \underline{\quad} \times \underline{\quad} \times \underline{\quad}$

What shape or solid is this formula used for? _____

c) $2s^2 \times h = \underline{\quad} \times \underline{\quad} \times \underline{\quad} \times \underline{\quad}$

What shape or solid is this formula used for? _____
