## Spring Scale Certification

Complete the following checklist as you handle the spring scale.

Step	Completed
1. I hold the spring scale by the loop at the top end.	<input type="checkbox"/>
2. I use the hook to connect the mass to the scale.	<input type="checkbox"/>
3. I can explain the importance of not stretching the "spring" in the scale too far.	<input type="checkbox"/>
4. I can read the mass of the object using the scale.	<input type="checkbox"/>
5. I can identify the units being used.	<input type="checkbox"/>
6. I handle the spring scale gently.	<input type="checkbox"/>

Bring this page to your teacher to have your Spring Scale License signed.

<p>_____</p> <p>is a spring scale master and is fully certified to use a spring scale to determine the mass of an object.</p> <p>Teacher _____</p> <p>Date _____</p>
