Use the following sources to answer questions 6 to 8.

Source I

Young Sambura women spend hours every day carrying water from a communal well to their homes in northern Kenya.

Source II

Source III

“There are moral, political and legal reasons that compel the government to work with First Nations on a new approach to safe drinking water.”

— Phil Fontaine, chief of the Assembly of First Nations, 2003

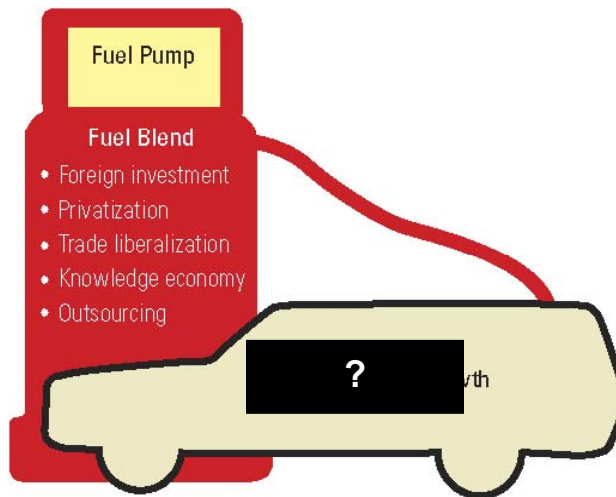

Source IV

“Humans consume water, discard it, poison it, waste it, and restlessly change the hydrological cycles, indifferent to the consequences: too many people, too little water, water in the wrong places and in the wrong amounts.”

— Marq de Villiers, Canadian journalist and writer in *Water: The Fate of Our Most Precious Resource*

6. The **main** issue raised in the sources is the
- A. different uses and quality of water
 - B. availability and quantity of water
 - C. quality and availability of water
 - D. shortages of water
7. The source that has the **most** direct Canadian connection is
- A. Source I
 - B. Source II
 - C. Source III
 - D. Source IV
8. The source that **best** shows a desire for a quick and easy solution is
- A. Source I
 - B. Source II
 - C. Source III
 - D. Source IV

Use the following diagram to answer question 9.

9. The **best** label for the vehicle in this diagram would be
- A. Gross Domestic Product
 - B. Sustainable prosperity
 - C. Economic Growth
 - D. Interdependence

Match the correct term with each statement in questions 10 and 11.

- A. sustainable prosperity
- B. gross domestic product
