Ongoing Assessment

- Upon completing the Chapter Review, students can also answer questions such as the following:
 - Did you work by yourself or with others?
 - What questions did you find easy? Difficult? Why?
 - How often did you have to check the related example in the text to help you with the questions? For which questions?

Teaching Suggestions

- The review is organized by chapter sections. It is designed to completely review the concepts studied in this chapter.
- One approach is to assign one section of the Chapter Review to the class. Have students work on it individually, then compare their solutions with a partner. This provides the opportunity for students to discuss the solutions and resolve any difficulties they may have had. Then, have students proceed to the next section and repeat the process. If they have difficulty, encourage students to refer to their notes or the student text for similar problems. When necessary, provide solutions for students who are struggling with particular questions.
- You may wish to use **BLM G1 Grid Paper** for the Chapter Review.
- Alternatively, have the class work on the entire review either individually or in pairs.
- Encourage students to flag the questions they found difficult. This will help indicate the ones they will need to focus on when studying.
- Use **BLM 6.CR.1 Chapter 6 Review** for extra review.
