

**CHAPTER 2****HANDOUT****Comparing Energy Sources****BLM 2-5**

**Goal** • Use this table template to record the information you research for Find Out Activity 2-D: Comparing Energy Sources.

Choose two sources of electricity to research. Use one column in the chart below to summarize your research for each source.

	Energy Source: _____	Energy Source: _____
Is it necessary to develop new technology to harvest this source of electricity?		
How expensive is it to develop the technology?		
How might the use of this source affect the environment?		
How might the use of this source affect people and communities?
