To the User

Welcome to the *MathLinks 7* Practice and Homework Book. This print resource provides additional opportunities for you to develop the skills you used in the *MathLinks 7* student resource.

- Each chapter begins with a Get Ready that can be used to help you reinforce the skills you will need to be successful with that chapter.
- The chapter content is divided into sections. Each section starts with a review of the Key Ideas. This is followed by a series of questions that allow you to practise and apply the skills and concepts from that section in the *MathLinks 7* student resource.
- The end of each chapter includes a Link It Together page that challenges you to combine the skills and concepts you learned during the chapter to solve problems.
- The final page of each chapter is a Vocabulary Link that reviews the key words and other important words from each chapter in the form of a word puzzle of some kind.
- Answers for all questions appear at the end of the workbook starting on page 152.

Additional activities, as well as games and puzzles, are available on the McGraw-Hill Ryerson Website. Go to www.mathlinks7.ca and follow the links to the Student Centre or to the Parent Centre. The Parent Centre also includes suggestions for helping your child in mathematics.
