

## **Develop a Park Student Exemplars**

### **Level 1**

The student applies an initial start that is correct. For #1, the calculation of area is correct.

### **Level 2**

The student demonstrates a basic understanding in completing all parts of the problem. Communication is basic and minimal. The student correctly completes #1, #2, and #5.

### **Level 3**

The student applies reasonable procedures with minor errors in communication. The area for #1 is missing a 0; however, the response to #2 shows understanding. The student provides incomplete justification for #5c).

### **Level 4**

The student has a complete and comprehensive solution. The work is clear. The processes and communication are in-depth.
