

Section 5.2 Extra Practice

For #1 and #2, use manipulatives to help you answer the questions.

1. Roll a six-sided die labelled 1, 2, 3, 4, 5, and 6 and spin a spinner with four equal sections of yellow, red, blue, and green.

a) Use the table to organize the outcomes of these two events.

		Die					
		1	2	3	4	5	6
Spinner	Yellow (Y)						
	Red (R)						
	Blue (B)						
	Green (G)						

b) What is the sample space?

2. Flip a chip that is red on one side and white on the other side, and roll a 4-sided die numbered 1 to 4.

a) Use the table to organize the outcomes of these two events.

		Die			
		1	2	3	4
Chip	Red (R)				
	White (W)				

b) What is the sample space?
