# Chapter 5 Project Checklist

This worksheet will help you complete the chapter project on page 254.

1. I will list all the Key Words and any other important terms used in this chapter. Include the following terms.

asset

liability

financial statement

balance sheet

2. I will use a word processing program to create the dictionary with one word per page.

- Find four definitions for each Key Word and term. Use dictionary web sites and financial web sites. Also, check financial materials supplied by banks, credit unions, insurance companies, and credit card companies.
- Copy and paste the definitions on the appropriate page. Include the URL where the information was found.
- Read all the definitions. Consider the similarities and the differences between the various definitions, depending on the type of web site used.
