

# Chapter 5 Warm-Up

## Section 5.1 Warm-Up

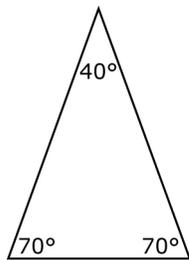

1. Identify the polygon.

2. Draw a  $70^\circ$  angle.
3. Determine the sum using mental math.  
 $6.6 + 3.6$

## Section 5.2 Warm-Up

1. What is the measure of each interior angle in a regular hexagon?
2. What is the sum of the interior angles of a pentagon?
3. Does this triangle tessellate?

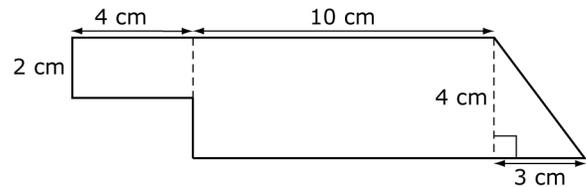

4. Substitute to solve the equation

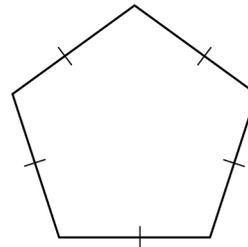

$$A = bh.$$

$$b = 2.5, h = 5.0$$

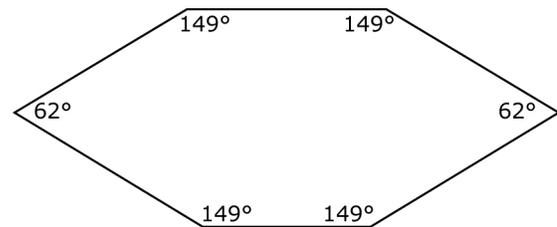

5. Determine the area of the figure.

4. Does this polygon tessellate?

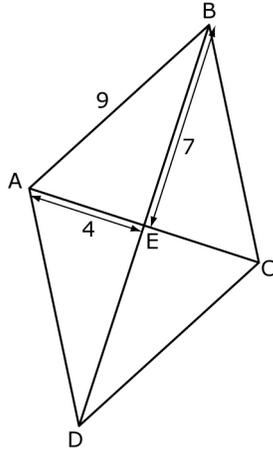

5. Does this polygon tessellate?

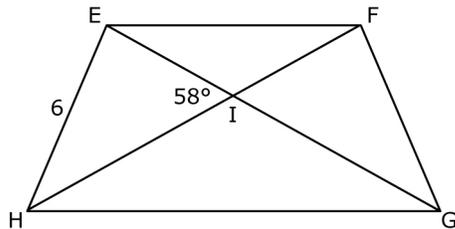

**Section 5.3 Warm-Up**

1. Given parallelogram ABCD, determine the length of the sides below.

- ED =  
 BD =  
 CD =  
 EC =

2. Given isosceles trapezoid EFGH, determine the measurements below.

- FG =  
 $\angle FIG =$   
 $\angle EIF + \angle FIG + \angle GIH + \angle HIE =$

3. True or false? A parallelogram has only one set of parallel sides.
4. True or False? An isosceles trapezoid has diagonals of equal length.
5. Label the following triangle so that it is correct.
